

## EUROPEAN DESIGN

Developed by a leading Italian medical device manufacturer, the Pagani Cryo T-Shock is a non-invasive technique producing results quickly without pain or recovery time.

## CUTTING-EDGE TECHNOLOGY

The Pagani Cryo T-Shock employs the science of Thermal Shock...alternating warm and cold at varying times, temperatures and sequences to create the desired effect on the body.

## HEAD-TO-TOE BODY CARE

Use of the T-Shock for facials reactivates dormant collagen, stimulates elastin and minimizes pores, creating tighter, healthier skin. Body treatments decrease fat, reduce the appearance of cellulite and smooth and tone.

ITALY'S  
BEST KEPT  
SECRET...  
IS FINALLY  
HERE.
